

Wright-Pierce Named One of Top Design Firms in the U.S.

Continued Growth in New England Earns Wright-Pierce Ranking Among the Nation's Most Successful Firms

Wright-Pierce, an award-winning water, wastewater and infrastructure engineering firm with offices in Middletown, CT and throughout New England, was recently named one of the Top 500 design firms in the country by Engineering News-Record (ENR), a respected trade publication for the AEC (architecture, engineering and construction) industry worldwide. ENR compiles and publishes rankings of the largest engineering and construction firms annually, measured by gross revenues. Wright-Pierce earned the recognition as one of the largest 500 U.S. design firms.

Wright-Pierce has been providing engineering services to municipalities, utilities and private clients for more than 60 years. Employee owned, with a staff of more than 175 engineers and support professionals in eight New England offices, the company has steadily expanded its consulting services over the past decade.

Wright-Pierce is a member of the United States Green Building Council (USGBC) and has LEED Accredited Professionals in architecture, engineering, landscape architecture and stormwater management.

Wright-Pierce Selected for 2010 Circle of Excellence

Wright-Pierce was also selected for the 2010 Circle of Excellence by PSMJ Resources, Inc., the premier management consulting firm for the A/E/C industries. Wright-Pierce has been recognized as a "Top Performing" firm by PSMJ for four of the past five years.

The PSMJ Circle of Excellence is determined by weighting each firm's ranking in the overall 2010 PSMJ A/E Financial Performance Benchmark Report with respect to 13 individual benchmarks. These benchmarks are indicative of performance in the various aspects of business operations, including cash flow, overhead control, business development, project performance, staff utilization, and overall profitability.

"The thirteen benchmarks that determine the Circle of Excellence were chosen to reflect that the firm is well-managed, has a strong client base, and is led in a responsible and sustainable manner. PSMJ believes that clients prefer to work with well-run firms because they are more likely to provide superior service and value," stated H.E. Daniels, PSMJ's survey editor. 💧
