

Wright-Pierce Selected for 2009 Circle of Excellence

PSMJ | Resources, Inc. .

Wright-Pierce announced in October that it had been selected for the 2009 Circle of Excellence by PSMJ Resources, Inc., the premier management consulting firm for the A/E/C (Architect/Engineer/Contractor) industries. Wright-Pierce has been recognized as a "Top Performing" firm by PSMJ for three of the past four years.

The PSMJ Circle of Excellence is determined by weighting each firm's ranking in the overall PSMJ A/E National Performance Survey with respect to thirteen individual benchmarks. The benchmarks are indicative of performance in the various aspects of business operations and are not determined by firm revenue, profitability, or size.

"The thirteen benchmarks that determine the Circle of Excellence were chosen to reflect that the firm is well-managed, has a strong client base, and is led in a responsible and sustainable manner. PSMJ believes that

clients prefer to work with well-run firms because they are more likely to provide superior service and value," stated H.E. Daniels of PSMJ.

"We are proud to be included in the Circle of Excellence for the third time in the past four years," stated William E. Brown, Wright-Pierce President and CEO. "This continued recognition confirms our commitment to provide the highest level of service and value to our clients."

Founded in 1947, Wright-Pierce is employee-owned and has a staff of approximately 160 engineers and support professionals located in nine offices throughout New England including Middletown.
